Summary

Final-year computer science student looking for a software developer role. Built and shipped full-stack projects used by classmates, interned on a production web app, and enjoy working in small teams that release often.

Education

Rajagiri School of Engineering and Technology (APJ Abdul Kalam Technological University) 2022 – 2026
B.Tech in Computer Science and Engineering — CGPA 8.7/10 (till 7th semester) *Kochi*

- Coursework: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering
- Department rank 4 of 120 in the 6th semester

Bhavan's Adarsha Vidyalaya 2022
Class XII (CBSE) — 93.4% *Kochi*

Projects

CampusMart — Student Marketplace

- Full-stack app (React, Node.js, MongoDB) for buying and selling used books and gear on campus.
- Added chat between buyer and seller and image uploads; 350 students signed up in the first term.
- Set up GitHub Actions to run tests and deploy on every merge to main.

Attendance Tracker with Face Recognition

- Python and OpenCV system that marks attendance from a classroom camera snapshot.
- Reached 92% matching accuracy on a test set of 45 students under normal lighting.

Bus Route Finder for Kochi

- Java desktop app that suggests the shortest bus route between two stops using Dijkstra's algorithm.

Experience

Web Development Intern May 2025 – Jul 2025
Techvantage Labs, Kochi

- Built React screens for a clinic appointment app, including booking and reminder settings.
- Added Node.js endpoints for doctor availability with input validation and tests.
- Fixed 20+ UI and API bugs from the team's backlog during the eight-week internship.
- Presented a demo of the booking flow to the client in the final sprint review.

Technical Lead Aug 2024 – Present
IEEE Student Branch, Rajagiri School of Engineering

- Led a team of six to build the event registration site for a 1,200-participant tech fest.
- Ran weekly Git and React workshops for 60+ first- and second-year students.

Skills

Java, Python, JavaScript, React, Node.js, Express, MongoDB, MySQL, HTML, CSS, Git, GitHub Actions, Postman, Data Structures and Algorithms

Certifications

- NPTEL: Programming, Data Structures and Algorithms using Python (Elite)
- HackerRank: Problem Solving (Intermediate)
