Summary

Quality assurance engineer with two years of experience testing web and mobile apps for a fintech product. Writes clear test cases, automates regression suites, and works closely with developers to stop defects reaching customers.

Experience

QA Engineer Aug 2024 – Present
Moneyleaf Fintech Pvt. Ltd., Bengaluru

- Own testing for the loan application flow on web and Android, across five releases a month.
- Automated 180 regression cases with Selenium and TestNG, cutting regression time from two days to four hours.
- Built REST Assured API tests for the KYC service and added them to the Jenkins pipeline.
- Logged and tracked 300+ defects in JIRA, with clear steps that helped developers fix them faster.
- Ran test planning in sprint meetings and kept the release sign-off checklist up to date.

QA Trainee Jan 2024 – Jul 2024
Brightpath Software Services, Mysuru

- Wrote and executed test cases for a school management web app used by 40 schools.
- Tested Android builds on eight devices with Appium and reported layout issues by screen size.
- Verified data in MySQL after each release to catch migration errors early.
- Prepared a smoke-test checklist that the support team now runs after every deployment.

Education

Christ University 2021 – 2024
B.Sc. in Computer Science — CGPA 8.2/10 *Bengaluru*

- Final-year project: automated test suite for an online exam portal
- Volunteer, Christ University Software Testing Club: ran testing workshops for juniors

Projects

E-commerce Test Automation Framework

- Page Object Model framework in Java with Selenium, TestNG, and Extent reports.
- Covered login, search, cart, and checkout across Chrome and Firefox.

API Test Collection for a Public Weather API

- Postman collection with 40 tests, environment variables, and Newman runs in CI.
- Added schema checks so a changed response field fails the build immediately.

Mobile Test Suite for a Food Ordering App

- Appium tests in Java for sign-up, menu search, cart, and payment screens on Android.
- Ran the suite on three screen sizes and documented 25 defects with screenshots.

Skills

Manual testing, Selenium WebDriver, Java, TestNG, Postman, REST Assured, Appium, JIRA, SQL, Git, Jenkins, Agile / Scrum, Test case design, Regression testing

Certifications

- ISTQB Certified Tester Foundation Level (CTFL)
